

Zscaler Private Access Competitive Take Out Promotion

Terms and Conditions

For Customers

- » For current users of Pulse Connect Secure, Cisco AnyConnect, Palo Alto Networks Global Protect, Check Point, F5 APM and/or Citrix NetScaler that switch to Zscaler Private Access™, Zscaler will issue a one-time “New Customer One- Time Competitive Replacement Credit” for the Zscaler Private Access subscription service of up to six (6) months at no cost with the purchase of a minimum 36-month subscription to the Zscaler Private Access Professional Suite.
- » This Promotion applies only to current users of Pulse Connect Secure, Cisco AnyConnect, Palo Alto Networks Global Protect, Check Point, F5 APM and/or Citrix NetScaler VPN solutions.
- » This Promotion is applicable only to the Zscaler Private Access Professional Suite. All other Zscaler products and services will be subject to Zscaler’s standard pricing.
- » The minimum number of seats that a prospective customer must purchase to be eligible to participate in this Promotion is 1,000.
- » The promotional period runs from February 1st to July 31st, 2019.
- » All participants in this Promotion will be required to commit to a minimum 36-month subscription to the Zscaler Private Access Professional Suite. The promotional replacement credit comprised of the time left on the customer’s VPN contract (up to 6 months maximum) will be added at the end of this subscription period at no cost. For example, if a prospective customer, who has 6 months left on their Pulse Connect Secure, Cisco AnyConnect, Palo Alto Networks Global Protect, Check Point, F5 APM and/or Citrix NetScaler contract, switches to Zscaler Private Access and commits (and pays) for 36 months subscription to Zscaler Private Access, they will receive a total extended subscription period of 42 months (36 months of paid service plus 6 months of complimentary service).
- » When calculating the replacement credit, any period of fifteen days or more remaining on the user’s existing remote access VPN contract, will be rounded up to a full month. So, for example if a prospective customer has 3.5 months left on their Pulse Connect Secure, Cisco AnyConnect, Palo Alto Networks Global Protect, Check Point, F5 APM and/or Citrix NetScaler contract, Zscaler will round this up to 4 months of Zscaler Private Access services at no cost.
- » If a prospective customer has purchased a support service package as part of their existing remote access VPN contract, Zscaler will provide an equivalent support service at Zscaler’s standard support pricing to the prospective customer.
- » The promotional replacement credit will only apply to customer’s initial contract term (36 months). All renewals will be subjected to standard Zscaler pricing and contractual terms.
- » Zscaler will not cover any hardware costs or hardware financing associated with any Pulse Secure, Cisco AnyConnect, Palo Alto Networks Global Protect, Check Point, F5 APM and/or Citrix NetScaler products as part of this Promotion.
- » Prospective customers will need to provide written confirmation that they have retired their Pulse Connect Secure, Cisco AnyConnect, Palo Alto Networks Global Protect, Check Point, F5 APM and/or Citrix NetScaler remote access VPN solution (an email to Zscaler’s rep will suffice).
- » By participating in this Promotion, customer agrees that Zscaler will be able to use customer’s name and logo for marketing purposes – including but not limited to customer case studies and testimonials. Specific details will be agreed by the parties.
- » Zscaler reserves the right to change or discontinue this Promotion at any time (however this will not affect any orders already placed under this Promotion).
- » **This promotion cannot be combined with any other Zscaler promotion.**

About Zscaler

Zscaler enables the world's leading organizations to securely transform their networks and applications for a mobile and cloud-first world. Its flagship services, Zscaler Internet Access™ and Zscaler Private Access™, create fast, secure connections between users and applications, regardless of device, location, or network. Zscaler services are 100% cloud delivered and offer the simplicity, enhanced security, and improved user experience that traditional appliances or hybrid solutions are unable to match. Used in more than 185 countries, Zscaler operates a multi-tenant, distributed cloud security platform that protects thousands of customers from cyberattacks and data loss.
